How-to Guide

How to find your AWS subscription credentials

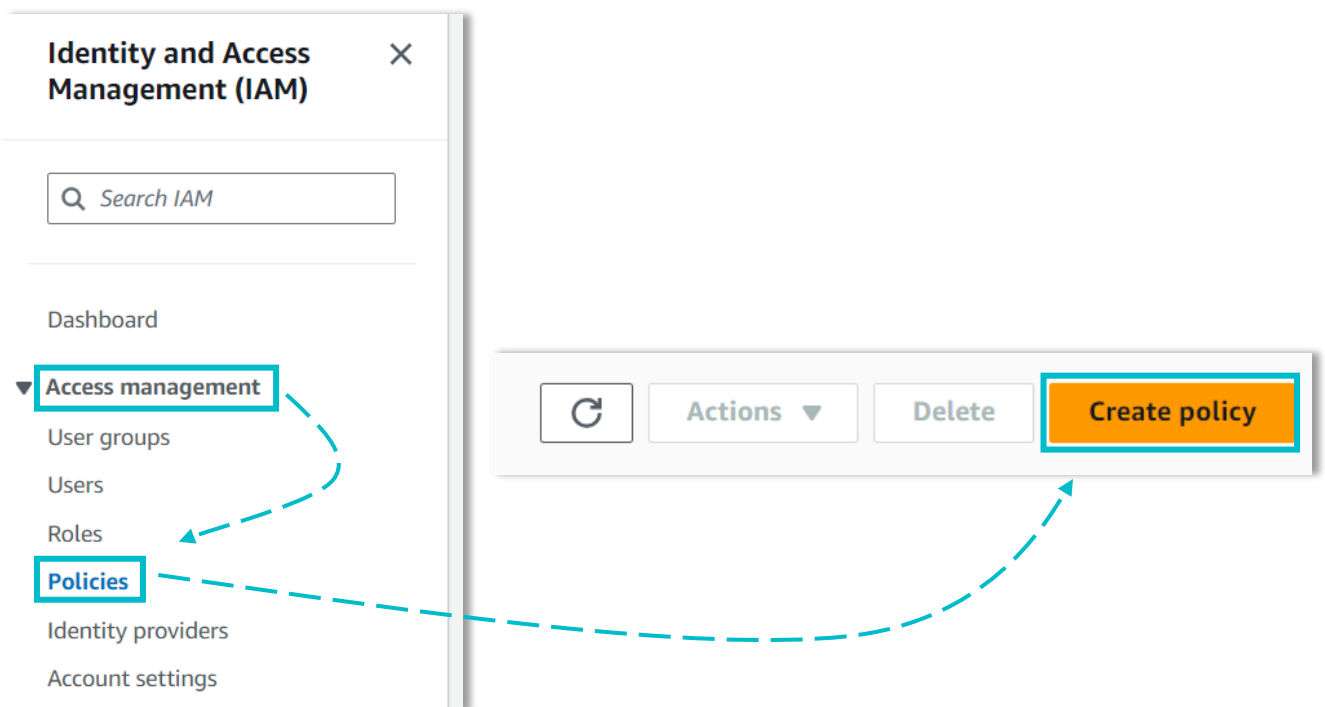

1

Sign into the [AWS Subscription Management Portal](#). From the search bar, search and open the page **"Identify and Access Management (IAM)"**

Open the **"Access Management"** menu than click on **"Policy"**. On the screen that appears, click on the button **"Create Policy"**

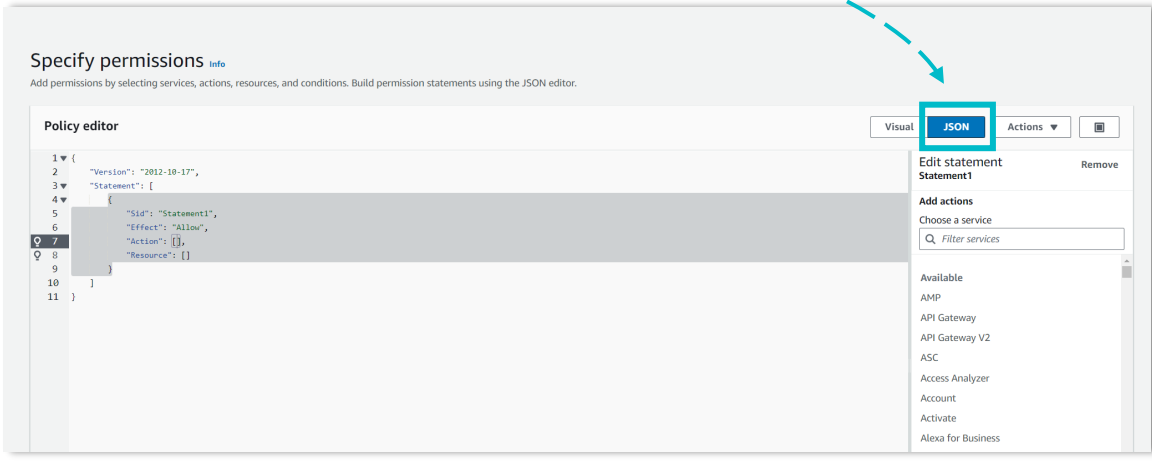

2

3

On the page that appears, select the **JSON** tab

IAM > Policies > Create policy

4

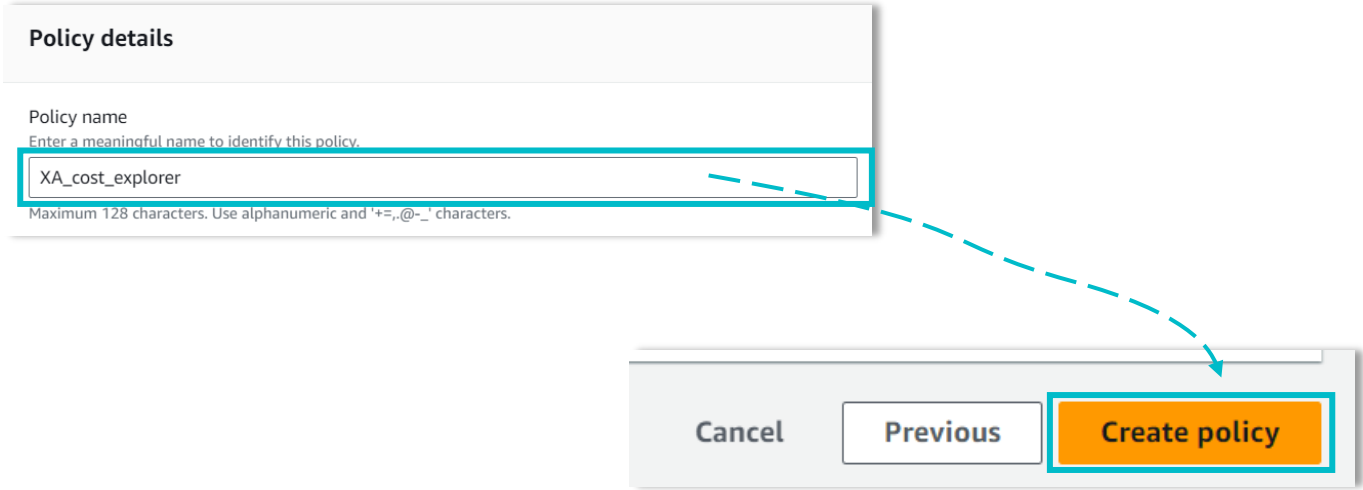

Enter the following text in the **policy editor**

```
{
  "Version": "2012-10-17",
  "Statement": [
    {
      "Sid": "sherlogicCostExplorer",
      "Effect": "Allow",
      "Action": [
        "ce:DescribeCostCategoryDefinition",
        "ce:GetRightsizingRecommendation",
        "ce:GetCostAndUsage",
        "ce:GetSavingsPlansUtilization",
        "ce:GetAnomalies",
        "ce:GetReservationPurchaseRecommendation",
        "ce:ListCostCategoryDefinitions",
        "ce:GetCostForecast",
        "ce:GetPreferences",
        "ce:GetReservationUtilization",
        "ce:GetCostCategories",
        "ce:GetSavingsPlansPurchaseRecommendation",
        "ce:GetDimensionValues",
        "ce:GetSavingsPlansUtilizationDetails",
        "ce:GetAnomalySubscriptions",
        "ce:GetCostAndUsageWithResources",
        "ce:DescribeReport",
        "ce:GetReservationCoverage",
        "ce:GetSavingsPlansCoverage",
        "ce:GetAnomalyMonitors",
        "ce:DescribeNotificationSubscription",
        "ce:GetTags",
        "ce:GetUsageForecast"
      ],
      "Resource": "*"
    },
    {
      "Effect": "Allow",
      "Action": [
        "iam:ListAccountAliases"
      ],
      "Resource": "*"
    }
  ]
}
```

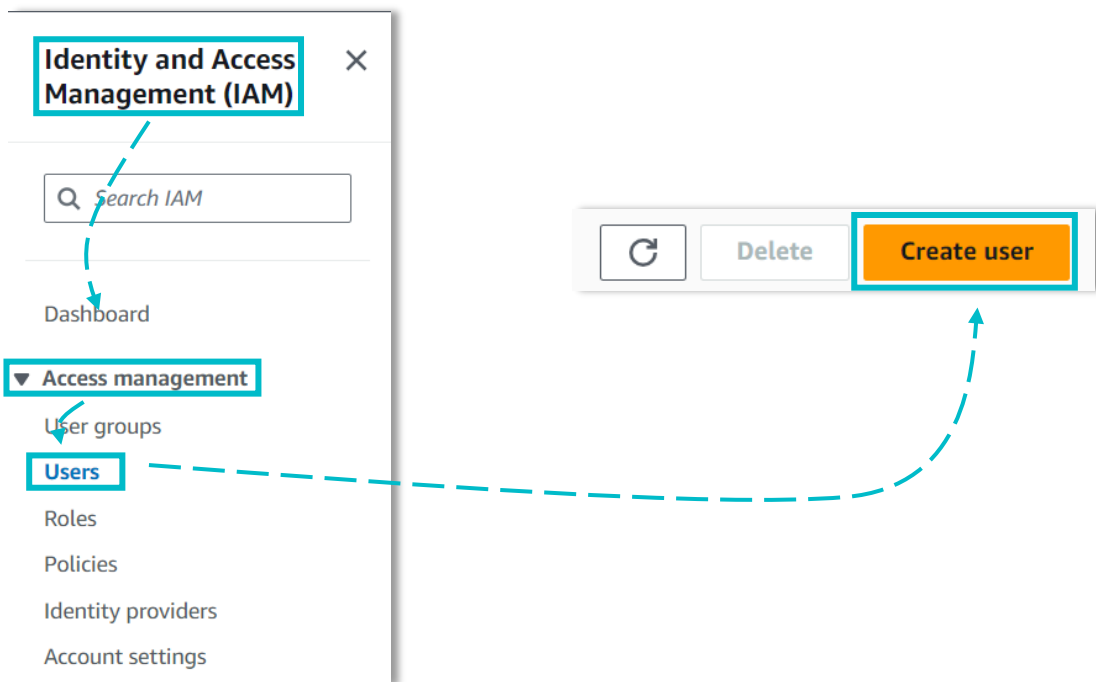

5

Rename the policy as you like and click on **"Create Policy"**

From the **"IAM"** panel, open the **"Access Management"** area and then access the **"Users"** tab. On the page that appears, click the **"Create User"**

6

7

Rename the user

IAM > Users > Create user

Specify user details

User details

User name

The user name can have up to 64 characters. Valid characters: A-Z, a-z, 0-9, and + =, . @ _ - (hyphen)

Provide user access to the AWS Management Console - optional
If you're providing console access to a person, it's a [best practice](#) to manage their access in IAM Identity Center.

If you are creating programmatic access through access keys or service-specific credentials for AWS CodeCommit or Amazon Keyspaces, you can generate them after you create this IAM user. [Learn more](#)

Cancel Next

On the "Permission Policies" section, select the previously created policy

8

Permissions policies (1169)

Choose one or more policies to attach to your new user

Filter by Type

Q XA- All types 1 match

<input type="checkbox"/>	Policy name	Type	Attached entities
<input type="checkbox"/>	XA-cost-explorer	Customer managed	0

Cancel Previous Next

9

Select **the user** just created, navigate to **“security credential”** and click on **“Create Access Key”**

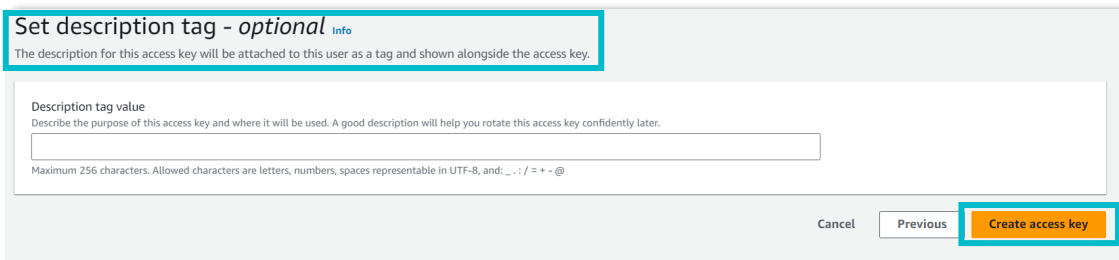

Select **“Local Code”** as authorization

10

11

Skip the **tag settings** and click on **“create access key”**

12

From here you will have the “**Secret Access Key**” and the “**Access Key**”, which are necessary for integration with the platform

Access key
If you lose or forget your secret access key, you cannot retrieve it. Instead, create a new access key and make the old key inactive.

Access key	Secret access key
<input type="text" value="AKIAZIB6MGO25FUYLGZJ"/>	<input type="text" value="*****"/> Show

Now, turn back to the **new subscription form** on **CLOUD SEEKER** and fill in all the fields with the key of previous step. Than click on “**Add new subscription**” botton to complete the link

13

1

<input type="text" value="Date Start"/>	<input type="text" value="Base Margin"/>
<input type="text" value="Reserved Margin"/>	<input type="text" value="Access Key"/>
<input type="text" value="Secret Key"/>	
<input type="button" value="+ Add new subscription"/>
